conduct the video interviews. The video interviews were conducted on December 13, 2019. Following the results from the interviews, the City have identified the top two (2) firms.

Kamas indicated a conference call will be scheduled soon for further discussion and is hopeful a decision will be made, as well as the Mayor’s blessing, concerning who the committee will recommend. Kamas stated she is confident the top two (2) firms are quality firms. She further stated there are some small nuances which means the experience can lead to different outcomes.

Commissioner Bracy inquired if the two firms are internal or external to the City.

Kamas responded and stated the two firms are external. Most of the firms that submitted had a local counterpart that will help with Community Outreach and Engagement.

Chairwoman Roberts affirmed that this is the collaborative environment that the City is hoping to build as a result of the effort of this committee. Roberts stated the committee members have observed how siloed the authorities were and how it is imperative for the authorities to work more in collaboration. Each authority has diverse responsibilities, assets and functions, but they affect one another. Ultimately, the goal is getting to a place where all the authorities are in communication, but independently functioning. This effort is to identify how to best structure Tulsa to move into a new phase of growth and development.

Kamas added they are anticipating a decision soon. Once a decision has been made the working committee will make the formal recommendation to the purchasing department.

b. Monthly update on Unity Heritage Citizens Advisory Team and next steps

Kian Kamas, Chief of Economic Development, provided an updated report regarding the Unity Heritage Citizens Advisory Team (UHCAT). Kamas stated the UHCAT met on November 18, 2019. She indicated the meeting was extremely productive and a significant amount of time was spent focusing on topics and issues the UHCAT desires to learn more about which ultimately broke down in several key areas including: Urban Renewal 101, helping them understand what Urban Renewal is and how it is exercised and Economic Development and Economic Development Tools. Other topics and issues that were discussed were strategies to minimize gentrification displacement, as well as affordable housing and the Downtown Housing Study that is currently being conducted. Kamas further stated the goal is to help the UHCAT better understand those topics so they can assist with the implementation of the sector plan that governs that area.
c. Update to TDA Board on the Downtown Housing Study, Development Strategies

Travis Hulse, Tulsa Planning Office introduced Development Strategies who joined by call to provide a general overview of the work that’s been completed since the Housing Study began in June 2019, as well as provide next steps and the direction it’s headed. Hulse also mentioned the consultants will arrive in Tulsa on January 23, 2020, for a drop-in session from 9:30 a.m. to 10:30 a.m. An invitation was extended to the TDA Board of Commissioners to have the opportunity to ask any additional questions.

Justin Carney, Development Strategies provided a detailed draft presentation on the Downtown Housing Study. He indicated the goal of the current effort was to reassess the potential for residential development in the study area with a new focus on; Engaging communities in and around Downtown, Identifying opportunities to align investments with community priorities, as well as Identifying tools that address the housing needs of all residents. During the next visit to Tulsa, the Consultants plan to facilitate an alignment workshop focusing on the priorities for the strategy and aligning those with the different entities.

Miriam Keller, Development Strategies provided a detailed draft presentation on Strategies of the Housing Study. She discussed five (5) overarching goals that included: Affordable Housing, Economic Development and Competitiveness, Homeownership, Housing as Opportunity and Stabilization and Quality of Life. Keller presented on strategies 1, 2 and 7 that were more in relation to TDA and their role.

Strategy 1: Support and expand attainable homeownership opportunities. Keller stated this is the role of financial assistance for homeownership that could potentially involve reprioritizing existing resources such as; Community Development Block Grant (CDBG) or home funds that will create new resources, as well as a Greenlining Fund an emerging tool for promoting residential investment in neighborhoods where values are depressed as a result of historic disinvestment. She indicated the Laura Dester site would be an excellent opportunity to generate funds that could in turn be used to support repair for homeowners by formulating a home repair program offering grants and loans to low to moderate income homeowners in the area.

Strategy 2: Address vacant and abandoned properties.

Strategy 7: Community Development Ecosystem. Utilize existing sources through CDBG and home to build capacity and explore creation of a Housing Community Development Financial Institution (CDFI).

Commissioner Bracy inquired about the funding sources regarding the home repair improvement program with the Laura Dester proceeds.
Miriam Keller responded and stated she will discuss further to see what the options are regarding those funds.

Chairwoman Roberts commended Development Strategies on identifying what the consumer needs. She inquired about an evaluation of what the cost was to build affordable housing and whether the developers could achieve profitability at the price points for the cost of the building relative to the rental rates for affordability that they will be expected to meet. Roberts also requested that developer-oriented data be added into the final presentation for the public. She emphasized that helping the consumers be able to pay for the rent will only work if we have developers who can be profitable at those rent rates. She explained that TDA enters into contracts with developers to help make their revitalization efforts financially realistic in environments where it otherwise is not realistic. To make good decisions, TDA will need this developer-oriented data to be added.

Miriam Keller responded and stated they have licensed appraisers who know the cost of development. She also stated as the report develops, they will identify what was tested, as well as the cost to deliver a product, versus value in the marketplace and in terms of getting a loan.

Chairwoman Roberts mentioned that TDA and possibly other housing groups will have an interest in the data due to TDA currently assisting developers to bring those things to the market. She also mentioned having the detail and understanding around what’s feasible and what’s not, will enable us to make good decisions in our development strategies and decisions.

The feasibility evaluation to be authorized will include but not be limited to making an appropriate determination as to the amount of available funds given previous expenditures authorized as well as interest earned and accumulated, and the appropriate use of those funds as permitted and authorized by the North Peoria TIF Project Plan.

Chairwoman Roberts acknowledged that this effort was led by Rose Washington, TEDC along with TEDC Board Member Casey Stowe in an effort to obtain funds, as well as financing to place a grocery store at Shoppes on Peoria. Roberts mentioned it's a great location but needs to be feasible from a funding perspective. The TDA Board is currently exploring with TEDC on whether the North Peoria TIF funds will be available for the public facilities, as well as the
infrastructure pieces of the project. Roberts also mentioned it was discussed about whether to obtain a Declaratory Judgement from the court to ensure things are done fair. Photos will be revealed to the public to enhance their understanding, as TDA begins to consider the possibilities. Roberts commended Rose Washington for her determination to make it come into a reality. She further added if TDA can assist her and do it lawfully and appropriately, they will.

Rose Washington, TEDC provided a detailed presentation with pictures of plans on developing a grocery store. She stated TEDC have been working on food desert elimination for several years and have learned a great deal as they attempt to execute on different strategies. She indicated that 93% of District One lacks access within a mile radius of affordable and quality fresh foods.

Vice Chairman Mitchell inquired about the possibility of redesigning an existing structure instead of a new build.

Rose Washington responded and stated based on the official assessment the existing structure at 60,000 sq. ft. was not economically feasible to acquire or redesign.

Commissioner Bracy suggested dividing it up in pieces, repurpose parts and lease out to other parties.

Casey Stowe responded and stated it would not work and it’s inefficient.

Vice Chairman Mitchell inquired of how many stores is the operator they are considering retaining operating.

Rose Washington responded and stated the operator was not currently operating any stores but is in the wholesale distribution end of the grocery store business and is working with Tulsa Housing Authority on the Choice Neighborhood Initiative, as well as opening a store in West Tulsa. She added in order to be successful in food deserts, affordable programming like this will need to be created.

Vice Chairman Mitchell had a few concerns regarding financing, operating cost, working capital to put inventory in place, as well as upfront and startup cost.

Rose Washington responded and stated TEDC is a lender first. She also stated they vetted the operator financially, as well as their capacity to come in with the necessary requirements to successfully operate a grocery store.

Commissioner Boxley inquired of what the Public Infrastructure Request would be used for.
Chairwoman Roberts responded and stated parking lot lightening and drainage around the facility, but at this time TDA Counsel is still in the process of assessing and determining both what is needed and what TDA feasibly can do with the available TIF funds.

After discussion, Vice Chairman Mitchell, moved to approve Resolution No. 6632 authorizing TDA General Counsel to Evaluate Feasibility and Legal Authority under project plan provisions of Tax Increment District No. 4 (a/k/a North Peoria TIF) to provide funding for Infrastructure and/or Public Facilities to Tulsa Economic Development Corporation for the Project Oasis Grocery Store Redevelopment. further clarification around interim uses as they relate to zoning board requirements, and for limitations on the allowed terms and conditions of the use.

Chairwoman Roberts explained there have been situations in the past where TDA was in possession of land, but not quite in a place to develop it and did not foresee future development. She also stated there often times are an interim use for those lands that would benefit or support the community, development or economic development and growth in Tulsa for example; if TDA had a portion of land and someone wanted to temporarily place their construction equipment on that land that is sitting empty, TDA can grant them authority to lease that land at a fair price and according to ordinary terms. That is what this policy is designed to do. She also thanked Kian Kamas for her assistance in drafting the revised policy and procedure. This will help TDA move forward in processing more interim use requests and will provide the staff the guidance they need on which requests to bring before the Board.

Kamas added there was one previous request and one current request. Kamas stated what was previously absent from the TDA interim use policy was the process. How do people apply, what information is needed in order to make a decision and what’s the fee to have a standardized process?

After discussion, Commissioner Boxley, moved to approve Resolution No. 6634 approving the Amendment of Section 20.20 of the TDA Policies and Procedures and Section 8.2 of the TDA Land Disposition Policies, both in their entirety, to be replaced by and with the Tulsa Development Authority Interim Use Policies attached hereto to provide more specific instructions and procedures for the interim, including temporary, use of TDA owned redevelopment real property and the process for approval or rejection by the TDA Board of Commissioners.
